Item # X-830-0100, PMGDM 100% Solids

CAS#: 148019-46-9

PMGDM is now available without any diluent. To use this neat material, simply add the desired quantity into the diluent of your choosing or directly into your formulation. PMGDM, also known as Bis (Glyceryl Dimethacrylate) Pyromellitate or Pyromellitic Dianhydride Glycerol

Dimethacrylate Adduct can make an ideal adhesive system using its four methacrylate groups and two carboxylic acid groups to bond to various substrates.

TYPICAL PROPERTIES

Molecular Formula	$C_{32}H_{34}O_{16}$
Molecular Weight	674.608
Solids %	100
Toxic Substance Control Act List	Listed
