

Item # X-945-7446, Tetraethyleneglycol Dimethacrylate

Product Name: Tetraethylene Glycol Dimethacrylate

CAS#: 109-17-1

EINECS/ ELINCS: 203-653-1

INCI: PEG-4 Dimethacrylate

The addition of an ethylene oxide unit to this product increases its reactivity and water absorptivity. It can be used as a primary constituent in anaerobic adhesives. Tetraethyleneglycol dimethacrylate is also sometimes referred to as TEGDMA.

TYPICAL PROPERTIES

Molecular Formula	C ₁₆ H ₂₆ O ₇
Molecular Weight	330.377
Purity	>89
Color (APHA)	<25
Inhibitor	MeHQ – 80-120 ppm
Refractive Index	1.461
Toxic Substance Control Act List	Listed
